Methodology and work plan

The methodology in this research study is not one-dimensional. It is rather host of historical, theoretical and analytical. The data is being collected from primary as well as secondary sources. Book, Journals and Magazines available in various libraries be the main source. Various speeches of Dr.B.R.Ambadeker will also be the source of this research.

Expected outcome of the Proposed Work:

The study will find out the nature of reservation made by Dr .B.R. Ambadekar and will show its implications in India .The study will show the importance of reservation towards the development of India. It clearly signifies that the reservation and the Babasaheb is the primary source of this study. Due to its importance, we will definitely reach towards the goal of development for our country as a whole. This type of study will help us to know about the future perspectives and the major intimations regarding the need of reservation.
