Objective

1) To study the format of Retail Industry in India and its scope for growth and development

2) To understand the Need and Importance for development of the Logistics Sector in India to supplement the growth of the Organized Retail Sector in India

3) To assess and examine the current Logistics Sector in India and its future prospects

4) Survey-based research designed to justify the emergence of the Third-party Logistics Services as a Specialized Supply Chain service providers for smooth functioning of the Retail Industry

5) To closely observe and follow how the International Logistics industry has fuelled the Foreign Retail Industry’s success formats

6) To suggest measures and practical implications for the development of Indian Logistics Sector and how it can impact the growth of Indian Retail Sector
Hypothesis

Based on proposed objectives, a set of Hypothesis is developed to empirically address the research in question.

**H1** There will be a significant difference in the working efficiency of Retail companies in India with the implementation of Third Party Logistics services.

**H2** There will not be a significant difference in the working efficiency of Retail Companies in India unless Third Party Logistics Services are implemented.

The above hypothesis shall be supplemented with additional sub hypothesis.
