Objectives :-

1) To study and examine the pattern of management education in India through regular as well as distance learning mode.

2) To study and assess the growth pattern of Management Education through distance learning mode in India.

3) To study and understand the processes of major global universities providing distance education / online education.

4) To study and understand the processes of select Distance education universities as well as institutes of India.

5) To evaluate the management education through distance learning mode by conducting a survey of major stake holders like students, education providers, faculties, alumni etc. related to distance learning.

6) To suggest measures for further improvement in the processes and systems based on the findings and observations.
Hypothesis :-

Based on proposed objectives mentioned earlier, a set of hypothesis are developed to empirically address the research in question.

**H1** There is a significant difference in the growth of Management Education through Distance Education mode in India.

**H2** There is a significant relationship between learning outcomes and methodology adapted in Distance Learning.

The above hypothesis shall be supplemented with additional sub hypothesis.
