INTRODUCTION

Corporate governance refers to the set of systems, principles and processes by which a company’s governed. It provides the guidelines to the companies how the company can be directed or controlled. Such that it can fulfill its goals and objectives in a manner. It is beneficial for all the Stakeholders. Stakeholders include the Board of directors, Management, Shareholders to Customers and Employees. It is a system of the rules and regulation by which the Companies are following in an organization. It is a relationship between the Company’s Management, its Board, its Shareholders and other Stakeholders, and the goals for which the corporation is governed. It is a Focusing on the internal and external corporate structures with the intention of monitoring the actions. It is a method of governing the company.

Corporate governance effects on the factors of the organization structure. In internal of corporate structure include the internally factor which affect the organization structure of corporate governance like the board of directors, executives, and other employees. In external of corporate structure include the Stakeholder, Suppliers and Customers affected by the organization structure. It is a relationship between the board of directors, company’s management, and other stakeholder in which the objectives of the companies are set and to achieve these objectives of the company through these parties. It’s also a relationship between the owners and the managers in an organization must be healthy and there should be no conflict between the two. The owners must see that individual’s actual performance in an organization.

ABOUT BRICS

The acronym "BRIC" was initially formulated in 2001 by retired chairman Jim O'Neil, of Goldman Sachs (American Multinational Investment Banking firm). He presented the report on growth prospects for the economies of Brazil, Russia, India and China which together represented a significant share of the world's production and population.
BRICS is a group of five major countries Brazil, Russia, India, China and South Africa. This grouping was originally known as "BRIC" before the inclusion of South Africa in 2010. South Africa began efforts to join the BRIC grouping and the process of joining began in August of that year. South Africa became a member of the nation countries on 24 December 2010.

The group was renamed BRICS after South Africa joined the group. In these countries economic are very large and fast-growing economies. All five countries are also a member of G-20 countries. These countries leader met in the every year and they talk about the different issue so the meeting of the leader is called the BRICS SUMMIT.

The first BRIC summit held on 16 June 2009 in Russia and hosted by the president of Russia. On the first BRIC summit attend the leaders of the countries Brazil, Russia, India and China. All countries attend the first BRIC summit expect the South Africa because at that time south Africa is not a member of BRICS.

The second BRICS summits held in Brasília, Brazil on 15 April 2010 with the Luiz Inacio Lula da Silva. All five-member attend BRICS summit held in 2011. In April 2011 South Africa become a member of BRICS Nation So the President of South Africa, “Jacob Zuma” attended the third BRICS summits in china, 2011.BRICS members are all developing countries. The fourth BRICS summit held in India 2012 and these summit hosted by the India Prime Minister Dr. Manmohan Singh. The fourth summits of BRICS attend to all the member countries. In 2013, the fifth BRICS summits held in South Africa in Durban with the hosted by the leader of South Africa Zuma and sixth summits of BRICS countries held in 2014 in Brazil. Fifth and sixth summits attended by the president of all the nation countries BRICS.

In 2015 the seventh BRICS summit will be held in RUSSIA and these summits will be host by the president of Russian Vladimir Putin.
REVIEW OF LITERATURE

Literature review means to find other articles, books or information about the subject you are researching. One of the purposes is to show that your subject is worthy of researching because others have also researched it. It also gives you a place where to begin to write and research your subject.

In the view of last few years’ research these studies conducted so far on Corporate Governance disclosure practices. These studies have been classified into two groups:-

- **Studies at National Level**

- **Studies at International Level**

NEED OF THE STUDY

It has been observed that all the previous studies are based on corporate governance practices in single countries namely India, Japan, South Korea, Sri Lanka and South Africa but this study is based on the group of five BRICS countries -

- This study would consider the practices of banking sector in BRICS countries as previous studies have not conducted on this particular topic. This study would be measured the banking sector of BRICS Nation because Banking sector play an important role in our developing Countries. Mostly banks are regulated by the government bodies. Banks need to enhance the shareholder value and to protect the interest of the shareholder; stakeholder unless banks adopt the transparency and integrity, banks cannot survive for long time so it is a need to a study of corporate governance practices.

- The study would present the differences in corporate governance practices of different countries in Global scenario.

- This study would help to the stakeholder and investors of the banks to know the corporate governance practices of the different countries which protect the interest of the stakeholder and investors.

- This study would enhance the knowledge of the investor which want to the invest in Banking of BRICS.
OBJECTIVES OF THE STUDY

The Research objectives help the researcher to avoid the collection of data which are not strictly necessary for understanding & solving problem that has defined.

The study will be conducted with a view ----

- To Study the legal environment of Corporate Governance in BRICS Countries.
- To Examine the Corporate Governance disclosure Practices of Banking sector in BRICS countries.
- To Make a comparative analysis of Corporate Governance disclosure practices in BRICS countries of banking sector.
- To Analyse the perception of users of banks towards Corporate Governance disclosure practices in BRICS countries of banking sector.

RESEARCH HYPOTHESIS

To provide the scientific base to the findings, the researcher will be constructed the following Null Hypotheses (H₀):-

- **H₀₁**: There is no significant difference between the corporate governance practices regarding Board of director of banking sector in BRICS countries.
- **H₀₂**: There is no significant difference between the corporate governance practices regarding Audit committee of banking sector in BRICS countries.
- **H₀₃**: There is no significant difference between the corporate governance disclosure practices among the selected bank of BRICS countries.
RESEARCH METHODOLOGY

Research methodology involves a full breakdown of all the options that have been chosen by a Banks in order to investigate something. This would include the procedures and techniques used to perform the research; as well as any of the terminology and explanations of how these methods will be applied effectively.

To accomplish the objectives of the study, the following research methodology would propose:-

a) RESEARCH DESIGN

The Research design for this study will be Descriptive as well as Analytical because it will be carried out the objectives and utilizes the large no. of data from the selected countries.

b) SAMPLE SELECTION CRITERIA

For fulfilling the objective, Top 3 Banks will be selected from each country. Indian banks will be selected on the basis of market capitalization as on 1st April 2011 and banks of other countries (Brazil, Russia, and China and South Africa) will be selected on the basis of market capitalization as on 1st January 2011.

Indian banks presenting accounts according to financial year is from 1st April-31st March therefore for Indians banks market capitalization as on 1st April 2011 is considered and other BRICS countries presenting accounts according to calendar year that is from 1st January –31st December therefore market capitalization as on 1st January 2011 has been considered for other BRICS countries banks.

c) SAMPLE SIZE

Top 3 banks will be selected from each BRICS countries so the entre size is 15 banks.

d) DURATION OF THE STUDY

For the purpose of analysis of data researcher will consider a period of five year i.e. 2011 to 2015.
e) **METHOD OF DATA COLLECTION**

The Data will be collected from the primary and secondary sources:

- **Primary Data**- The primary data will be collected by constructing a questionnaire and questionnaire will be served to the accounting information users of banks on the basis of Convenience sampling. The questionnaire will be served to 400 respondents as follow:
  
  I. 200 respondents from India
  
  II. 50 respondents from each country other than India from BRICS. (Brazil, Russia, China, South Africa)

- **Secondary Data**- Secondary data regarding the corporate governance practices will be collected from the annual report, websites of banks, journals, magazines and newspapers.

f) **STATISTICAL AND PRESENTATION TOOLS**

For the data analysis various statistical tools like Average, Percentages, ANOVA, Chi-square and other statistical tools will be used for analysis.

For the presentation of data various charts and Graph will be used
