**Objectives**

Keeping the above-mentioned aspects, the following specific objectives were outlined for the study.

1. To predict the trend in arrivals and prices of cumin and fennel in Unjha’s APMC
2. To measure and compute the relationship between arrivals and prices of selected commodities.
3. To estimate the arrivals and prices of selected commodities,
4. To suggest appropriate policy measures
5. To put the estimates or future value on website through Information and Communication Technology tools to farmers
