WORK PLAN AND METHODOLOGY

This is qualitative study. The study is based on Amish Tripathi’s novels named, ‘The Immortals of Meluha’, ‘The Secret of the Nagas’ and ‘The Oath of the Vayuputras’ and study of Puranas, Mahabharata, Bhagwat, Shiva Purana and many other books. To know about the historical facts I saw books relating to history. I have even gone through many published articles relating to my research work. If possible, I’ll try to personally talk to the author face to face or through face book.

My research work will have six chapters:

The first chapter will be of introductory nature. It will include the life and work of Amish Tripathi.

In second chapter I will try to evaluate briefly the three novels of the Shiva’s Trilogy.

The third chapter deals with the concept of myth, and the way Amish has interpreted them in his novels.

The fourth chapter will be on the Modernity and the blending of it with tradition.

The fifth chapter will be on the historical, socio-cultural and philosophical aspects of the novel.

The last chapter will be conclusion.
