OBJECTIVES OF THE STUDY

Keeping the purpose of the study in mind, the following specific objectives were formulated.

- To give explanations about the real facts about when how and why alcohol is a problem

- To help students to spread awareness about the dangers hiding behind alcohol

- To give some insights into student’s community about alcohol and its effects so that they will have the awareness and the realization to avoid problem drinking

- To find out how far psychosocial education help the students to understand and adopt control over alcohol intake and lead a healthy life
