HYPOTHESIS OF STUDY

Hypothesis is a great need for any research study. Without hypothesis any research study dose not get proper way and direction. The problem solution of the research problem is the hypothesis. The political participation of Dhangar community is so limited. They doesn’t got the any benefit of the reservation and any social. While studding the political socialization and political participation of dhangar community hypothesis are following.

- Lake of Political and Educational awareness in this community.
- Lake of effective and Powerful leadership of political in this community.
- Not getting any chance in political participation and decision making in this community.
