RESEARCH METHODOLOGY:

Research in common parlance refers to a search for knowledge. Once can also define research as a scientific and systematic search for pertinent information on a specific topic. In fact, research is an art of scientific investigation. "Redman and Mori define research as a "Systematized effort to gain new knowledge."

To perform research work in a systematic way, it is very necessary to have a clear understanding of research methodology. Research is bringing new knowledge of human behavior, new concepts and products are emerging as a result of research. The main aim of research is to find out the truth which is hidden and which has not been discovered as yet, though each research study has its own specific purpose.

EXPECTED OUTCOME OF THE PROPOSED WORK:

The research work will find out the facts which are to be grasped necessary to eradicate the grass roots of the poverty.

- To evaluate the basic objectives of the research to highlight the ways which will provide the relief from the poverty?
- To envisage the basic tenets of the education to eradicate the poverty.
- To mention the message to those people who are living under the scrooge poverty that it can be removed through proper channel and there is no need to use the violence and such instruments which may harm the Prosperous society.
- The main expectation of this research work is that each and every body should work for the betterment of their own and then for the behalf of the society.
To provide the ways and means which will help the incoming generation that they can be the pioneers and torch bearers in the terms of the removal of the poverty?

To study the needs and desires of the people which are suffering in the rural areas?
