**Objectives:**

1. To assess the difficulties of working students
2. To Classify the difficulties of working students
3. To evaluate the reasons behind the difficulties of working students.
4. To prepare the model to remove or solve / reduce the difficulties of working students
5. To implement the model and to measure its effectiveness.

**Hypothesis:**

A comparative study of working students from two different study centres of YCMOU, C.U Shah School & Mumbadevi Junior College, Kandivali-(East) and Pragati College, Borivali-(West) may be considered in order to understand the problems of working students.

**H1- Research Hypothesis:**

The model is useful to solve the difficulties of the working students of YCMOU study centres.

**H2- Null Hypothesis.**

There is no significant difference in the difficulties faced by the working students of YCMOU, before and after applying the model.
