WORK PLAN AND RESEARCH METHODOLOGY

RESEARCH TOOL:

In this research Standardised research tool will be used.

1. For measuring academic anxiety “Academic Anxiety Scale” developed by Prof.S.K. Pal, Dr.K.S.Mishra, Dr.Kalplata Pandey will be used.
2. For measuring Socio-economic status SESS(socio-economic status scale) will be used, which is developed by Dr.Rajeev Bhardwaj.
3. For measuring level of aspiration “Educational Aspiration Scale” will be used. Which is developed by Dr.V.P.Sharma and Dr.Anuradha Gupta.
4. For measuring Intelligence level “Intelligence Level Scale” will be used, which is developed by S.S.Jalota.

POPULATION

Population for the study comprises of secondary school of Uttarakhand state board and C.B.S.E. board of Dehradun district.

SAMPLE

For choosing sample simple Random Sampling and Stratified Random Sampling will be used.
STATISTICAL TECHNIQUE USED

After the data collection it will be tabulated according to the variables and the scores will be analysed through statistical techniques like

1. Mean
2. Standard Deviation
3. T-Test
4. Correlation

As per the research requirement other statistical techniques will be used.

ANALYSIS AND INTERPRETATION OF DATA

After collection of data and using statistical technique Researcher will explain and analysis will be done.

CONCLUSION AND SUGGESTION

After interpretation and analysis of data conclusion will be drawn and importance of research and suggestion for further research will be given by the Researcher.
