**Objective:-**

The study is carried out with the following objectives.

1. To explain the concept of wireless network in BSNL Mobile Network.
2. To take review of the progress of switching mechanism in wireless network.
3. To study the needs of switching mechanism for better administration in Wireless networking.
4. To study the benefit of wireless GSM network in BSNL
5. To study the problems in implement in GSM wireless Technology in bsnl mobile network.
6. To suggest the limitation of switching GSM wireless network BSNL mobile network.
