Objectives

Keeping in view the need of the implementation of web-based Academic Stream Assessment System (WCSAS), the following major objectives are listed:

1. To study the characteristics of Science, Commerce and Humanities stream students based on Personality, Aptitude and Interest factors of career stream assessment.

2. To evaluate the characteristics of students stream wise.

3. To design a "Stream Assessment tool" that will be used for assessment in Web-based Career Stream Assessment System.

4. To implement Web-based Career Stream Assessment System.

5. To test the validity of the Web-based Career Stream Assessment System.
