AIMS AND OBJECTIVES

1. To evaluate sealing ability of teeth obturated with lateral compaction technique using conventional gutta-percha and AH Plus sealer.

2. To evaluate sealing ability of teeth obturated with Thermafil obturators and AH Plus sealer.

3. To evaluate sealing ability of teeth obturated with Guttaflow.

4. To evaluate sealing ability of teeth obturated with Pro-point.

5. To compare the sealing ability of Conventional gutta-percha, Thermafil, Guttaflow and Pro-point.
