INTRODUCTION

Today, business internet selling is the fastest developing sector of online commerce. The big difference between traditional online selling is the range of interaction between the consumer and seller. These problems can be avoided when you shop online and can say customer is enjoying the online shopping. Online shopping was invented by Michael Aldrich in 1979 and launched Redifon’s Office Revolution in 1980, which allowed consumers, distributors, suppliers and service companies to be connected online to the corporate system. Online shopping sectors such as fashion and accessories, electronic/electrical goods and also books are growing in U.P. Web sites provide a chance to search information about products/services, place a comment or give orders (Hoffman and Novak, 1996; 51).

Online Shopping

Online shopping or e-shopping is a form of electronic commerce. Online shopping has grown in popularity over the years, mainly because people want it Convenient and easy to bargain shop from the comfort of their home or office. Online shopping is defined as the process a customer takes to purchase a service or product over the internet (Jusoh 2012). Online shopping will become a necessity for most of the people in the world. Consumers can easily compare price, features, and functions and get the latest updates of any products just by your mouse. Consumers’ behavior towards online shopping is known as online shopping is known as the main factors that affects e-shopping potential (Shwu-Ing, 2003).

The study also decided of perceived benefits of online shopping, perceived sellers, reliability, consumer’s lifestyle and consumer’s past experience ecommerce requires a direct impact on attitude. In such busy schedule a lot of people do not have time for offline shopping. They can shop either from their office or from home by using internet. There is no line to wait in or shop assistant wait on to help u with your purchases and u can do your shopping in minutes. Online shopping gives us the opportunity to shop 24/7 and also payment us with the “no pollution” shopping experience. Some online shops offer discount coupons. Inexpensive deals and better prices are available online. Also there are buy get one free offers as well as combo offers. Many choices online are amazing, several brands are available online and different products.

There is a need to make a distance an excuse for not sending a gift on occasion like birthdays, wedding, anniversaries, valentine’s day, mother’s day, father’s day and so forth. Consumers can purchase any goods and services anytime and anywhere. Consumers can easily track their product. Online shoppers want flexibility in their shipping mainly the ability to give special delivery instructions or schedule a delivery time. If consumers order the any product and he do not like a product, so he can easily return the product. In India more and more people are shopping online easy day. Now a day a car park charges so high that it puts them off; and with online shopping he
can look at what they have to offer without being bothered or interrupted by shop assistant. Many online shops offer discount coupons and rebates. Consumers can get in on the latest international trends without spending money on travel.

Traditional Shopping in India
In age of online shopping, the culture of traditional markets in India strives to survive. India, being a land of different cultures and ethnicity, can always impress you with its rich heritage through the wide array of traditional markets it hosts. Some of famous traditional markets in India:

1. Johari bazar, Jaipur
2. Dilli haat, New Delhi
3. Lakkar bazar, Shimla
4. New market, Kolkata
5. Kannaui market, Utter Pradesh

India is a beautiful country entwined between the traditions of the past and the advantage of technology.

Recent Trend of Online Shopping in India

A new trend in this universe is that of Meta search engines. A Meta search engine searches all the online travel sites (comprising the airlines sites as well) and shows the best deals for the online user. Travel websites, such as Make My Trip India Pvt. Ltd and Yatra Online Pvt. Ltd, Online shopping has its precise advantage. There are some trends that have developed in the current e-commerce scenario.

1. Consumers provide our customers with shopping coupons and discounts.
2. Most of the companies covering rural area, and the product will reach to most of the cities and towns.
3. Many companies like Amazon, Flipkart, eBay, jabong etc. are already started reducing the product price as discount sale.

E-Commerce & E-Commerce Companies in India
E-commerce- “E-commerce is benefiting from several positive trends, including the continued roll out of broadband, increasing user comfort shopping online and the decline of certain brick-and-mortar retailers,” (Imran Khan, 2011, P.416).
E-commerce refers to purchase and sales of goods or services via electronic channels such as the internet. E-commerce was the first introduced in the 1960.
E-Commerce Companies in India- India are one of the best places to launch an online shopping websites. Many online shopping websites launched in India like-
