Objectives of the study –

1) One of the major aspects of study of women empowerment is to change the attitude of society towards women’s.

2) To know the financial progress of women’s.

3) To ending virulence against the women’s.

4) To ending gender inequalities.

5) To understand the Women empowerment can not take place unless women come together and decide to self – empower themselves.
HYPOTHESIS OF THE STUDY -

**H1-** Empowerment would not hold any meaning unless they are made strong, alert and aware of their equal status in the society.

**H2-** Empowerment through the self – help groups should be framed to bring them in to the mainstream of society.
