1) INTRODUCTION

Trends of Green Tourism – A standout amongst the most essential kinds of new the travel industry.

Before the finish of the 20th century emotional changes in the worldwide economy dropped customary monetary assets, horticulture and industrialization, to be supplanted by various administrations enterprises, broadcast communications, data innovation, saving money what's more, travel and the travel industry – renowned field which, at present leads the world economy. The travel industry is never again the action embraced by individuals, in which they go out for a specific period to invest relaxation energy, however a colossal administrations industry that has developed and created the world over the recent years by 500%. Nearby the travel industry has extended significantly at the same time and the world the travel industry traffic has achieved the final turning point as far as its expanding development since the mid-fifties of the twentieth century. Regardless of troubles and emergencies, the travel industry has figured out how to extend its underlying foundations in the contemporary culture before the finish of the twentieth century. Thus, the world is experiencing an emotional time of social, civilizational, monetary and ecological advancement which prompted a purported "new the travel industry period" with its unique highlights and claim patterns. One of the key patterns is the presence of new kinds of the travel industry like Green Tourism. Green Tourism fulfills the prerequisites of condition and its assurance from contamination through projects in which stimulation and assurance supplement one another. It is portrayed as practical the travel industry, elective the travel industry and in addition adjusted the travel industry. Natural insurance is the foundation for the coherence of the travel industry in the long haul and thus formation of new openings for work. Be that as it may, the travel industry arrangements ought not just take into account financial and innovative contemplations, yet in addition saving the necessities of facilitating residents in general and those of the travel industry staff specifically. The sort of the travel industry that meets such prerequisites is named maintainable the travel industry, elective the travel industry or adjusted the travel industry.

Green Tourism has turned into the focal point of the world intrigue and the specialization of many visit administrators, there are a ton of voyagers who search for convenience at eco-accommodating green lodgings, as a prerequisite. It is a mindful eco-accommodating kind of the travel industry pulling in knowledgeable and spotless, regular, condition sweethearts, dimensions of sightseers. Condition is the foundation of the travel industry action and clean condition is a certification furthermore, a key factor of the travel industry fascination. The travel industry and condition are opposite sides of the same coin, giving careful consideration to natural security and creating natural assets. Result in the congruity, manageability and development of the travel industry action. A vacationer goal's notoriety is discolored by the absence of condition security, as it is probably not going to accomplish maintainable the travel industry advancement except if natural assets are all around ensured. Because of the cozy connection between the travel industry
and condition, the United Nations Condition Program (UNEP) and the World The travel industry Organization (WTO) have marked in 1982 joint presentation and set up a perpetual panel on the travel industry and condition in an offer to spread condition mindfulness among people groups of the world. Because of this cozy relationship, the World Ecotourism Summit, was held in Quebec City, Canada from 19 to 22 May, 2002 as an indication of taking care of the world's enthusiasm for Ecotourism that seen a 18% development 20% development, one of the most elevated development rates of the travel industry types, and seized at any rate 20% of the world the travel industry traffic. In 2002 the world observed World Tourism Day under the aphorism: 'Ecotourism: The way to economical improvement'. Economical the travel industry is the way to the future. It ought to be shown that new patterns in ecological security are mulled over to accomplish the standards of Green Tourism, all together to apply a coordinated situation framework to reach a manageable the travel industry approach that stays with nearby condition laws and diminishes business costs through the ideal utilization of common assets and enhancement of the pictures of vacationer offices. Environmental insurance has turned into the world's concern and, a major test to mankind, all things considered a matter of worry for both, the present and what's to come ages.

Sacrificing the future generations’ right in a clean environment means that we destroy a truth stated by scientists:

“We Do Not Inherit This Earth From Our Ancestors, We Borrow It From Our Children”

**OUTLINE OF NORTH EAST STATES:**

India's North East is a place that is known for undulating slopes and fields with rich green cover and a wide assortment or uncommon and intriguing greenery.

The eight states of North East India are honored with grand normal excellence, salubrious climate, rich biodiversity, uncommon untamed life, recorded destinations, particular social and ethnic legacy and warm and inviting individuals. The states offers extraordinary visits for travelers keen on untamed life, religious, social and ethnic the travel industry, waterway travels, golf and a large group of others. There is likewise incredible breadth for mountaineering, trekking and experience the travel industry in the north eastern states.

North-eastern states are for the most part in reverse as contrast with different states of the nation. Yet the north eastern states have copious regular assets, which make a rich state with cherishing atmosphere and temperature. Many part is unexplored till date .WITH the development of the travel industry in India, the north east locale turn into a fascinating spot for residential and also remote sightseers. The design of green the travel industry is across the board through north-east area. Green the travel industry assumes a key job in economy and advancement in north east state.
GREEN the travel industry item incorporates culture, people, lifestyle, cuisines, festivals & fair, Music& dance, Art and Craft, Mountains and Hills, Natural beauty, Water Bodies, Deep Forest, wildlife, Tribal visit.

2) ESSENTIALNESS OF RESEARCH

As of late, India the travel industry has been advancing travel in the way of life and nature-rich North East piece of the nation. This is reflected in more flights, enhanced foundation, and more tradeshows, in addition to other things. North East India is a place that is known for Blue Mountains, green valleys, and red streams. Settled in the Eastern Himalayas, this locale is bottomless in common excellence, natural life, widely varied vegetation, and its bright individuals. A mix of every one of these makes it a standout amongst the most wonderful eco-the travel industry goals in South Asia. The most recent toward this path is the setting up of the North East India Tour Operators (NEITO) affiliation, which has the endorsement of the India Tourism Ministry. NEITO tries to work with partners to see that travel industry creates economically and that there is coordination and quality control. The North Eastern Council (NEC) is the nodal office for the financial and social advancement of the North Eastern Region which comprises of the eight States of Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura. The North Eastern Council was comprised in 1971 by an Act of Parliament and denoted the start of another part of purposeful and arranged undertaking for the fast improvement of the area. In the course of the most recent 35 years, NEC has been instrumental in getting under way another financial undertaking went for expelling the essential cripples that obstructed typical improvement of the locale and has introduced a time of new expectation in this retrogressive region loaded with extraordinary possibilities. The affiliation president is Vishal Jain of Shivani Aviates, VP is Hemant Das of Network Travels, and Mrs. Madhusmita Khound of Avani is secretary. SazidSubhan of Fastrack is the Treasurer, and Arijit Purkayastha of Kayal is the central counselor.

3) OBJECTIVE OF RESEARCH

1. To investigate the Truth and Golden Opportunities in North East Region, Tourism Industry.
2. To study attitude of neighborhood individuals, consumer conduct and steadfastness in the travel industry division.
3. To discover different techniques for the development and advancement of the travel industry in Northeastern region of India.
4. To contribute teaching advantage of green the travel industry to the general public and for executing more the travel industry and friendliness courses in schools and colleges.
5. To discover the different issues related with tourism industry in North East India, finding the solution and giving proper proposals for the problem face by tourism industry.
4) RESEARCH METHODOLOGY

The information required for the present investigation has been gathered from different sources and for the most part dependent on optional information accessible. The Secondary information are gathered from different distributed sources such i.e. magazines, papers, diaries, books, and different other distributions. In addition, some critical data is moreover gathering from pertinent sites. The present research is descriptive in nature.

5) LITERATURE OF REVIEW

1. G.S.Batra and R.C.Dangwal(2001)in their book titled, “Tourism Promotion and Development” have viewed a potential tourism of India due to its unique assets. The potential has not explored till date and whatever attempts are not meeting an expectation.

2. P.O.George(2003)in his article on “Strategic Management in Tourism” has highlighted that tourism involves too many intermediaries like government, semi government and private organizations providing different hospitality services to Customer . He emphasis the need for long term planning with forecasting strategy including development of major tourism facilities such as road, railways, airport, walkways, drainage, benchmarking and tourism laws for development of tourism. The writer also has recommended a strategic management committee for the administration of the signifance of tourism.

3. Viju Mathew(2009)“Sustainable Tourism”: A case study on the destination competitiveness in South Asia explains the sustainable tourism is multi tourism not only protect environment but expansion of economic growth in society. The tourism nature is complex and considered as smokeless industry, operating in micro and macro environment with factor of competition and sustainability.

4. R.K. Singh and D.K.Mishra (2004)in their study on “Green Tourism in Mountain Regions-Reducing Vulnerability and Promoting People and Place Centric Development in the Himalayas” have discover the Manali’s environment problems like limitation of water, busy road, heavy traffic, garbage problems and other unplanned illegal construction and sanitation. They finds and suggests long and short term strategies for transport water, dorm, sewage, finance and energy level uses. It also cautious a step toward state govt. to avoid mass tourism & create healthy and clean environment.
5. Pesonen and Komppula (2010) Rural wellbeing tourism: Motivation and exception. They aim goal in 2 fold in this article, to investigate rural tourism by comparing motivation and secondly, using segmentation in motivation to discover wellbeing segment from other segment.

6) Eco-tourism in North-East India – 3 Responsible Destination

1. LOKTAK LAKE, Manipur

Loktak Lake is an excellent freshwater lake in Manipur. It is situated close Moirang and esteemed to be the biggest freshwater lake in North East India. Described by the skimming vegetation called 'Phumdi'. Loktak Lake is likewise known to be the main 'Gliding Lake' on the planet.

Loktak Lake is a characteristic fortune for Manipur which not just adds to the extraordinary regular excellence of the state yet in addition assumes an extremely noteworthy job in the economy of the state. Loktak is the primary source that drives the power, water system, and drinking water supply of the state. The lake is rich and plentiful in bio-assorted variety. The most delightful part of the Loktak Lake is the 'phumdi' which is a heterogeneous mass of vegetation, soil, and natural issues at different phases of disintegration. There are a few 'phumdis' gliding everywhere throughout the whole stretch of the lake giving it a stunning point of view. These drifting 'phumdis' are solid enough to manufacture covered cabins upon them and make incredible settlements for the nearby anglers.

Found pretty much a hours head out from the capital city, Imphal, the Loktak Lake is substantially more than a freshwater lake. It is likewise home to probably the rarest and imperiled types of widely varied vegetation. The forehead antlered deer ‘Sangai’, which is the appeal of the state blossoms with the characteristic living space in the Keibul Lamjao National Park which, truth be told, is a rich adjacent stretch of ‘phumdi’ at the area of the Loktak Lake.

Loktak Lake isn't only a lake; it is without a doubt a method for occupation for the general population, a wellspring of extraordinary monetary sustenance, a characteristic fortune of astonishing widely varied vegetation, and a noteworthy vacation destination. A view from the Sendra Island gives a stunning point of view of this astounding lake.
2. MAWLYNNONG , Meghalaya

Mawlynnong is a town in the territory of Meghalaya, situated on lower regions neglecting the fields of Bangladesh. It is just lately that the outside world has found this jewel of a place, and has fittingly considered it the cleanest town of Asia. From that point forward, the travel industry has realized numerous positive changes to the town. The tribesmen of the town who have a place with the Khasi Tribe, have turned out to be increasingly enthusiastic towards keeping their town clean and rationing the backwoods around. The cash produced is along these lines used in positive undertakings. For voyagers, there are numerous little and concealed enjoyments that Mawlynnong offers. One can visit mind boggling living root spans, which are exceptional instances of feasible designing. These synthetic regular miracles ended up celebrated after BBC made a narrative on them. There are many known and concealed cascades around Mawlynnong where one can invest energy climbing, lazing out or having an outing. The most intriguing part of the town is the Khasi individuals, who with their appeal and benevolence have won the hearts of all voyagers who visit here. The town itself resembles a state in Eden, where comfortably constructed houses exist middle fascinating brilliant blossoms. For remaining in the town, there are a couple of tree houses kept running by the town gathering.

3. ANDRO VILLAGE , Manipur

Andro has its very own rich history. It is an old town knows for pottery making. Andro is found 21 km from Imphal at the base of a slope. These days it is getting to be prominent travelers goal for city occupants on account of its simple availability and the attractions.

Chakpa Panam Ningthou Meithoupirol Shanglen or Mei Mutaba is an intriguing goal. It is an old conventional sanctuary, where for in excess of a thousand years the fire lit inside has never been destroyed since it was begun.

In the recent years, the residents of Andro have woken up to the potential of sustainable tourism. While they are careful about preserving the pristine beauty of their surroundings, they have been working to the boost eco-tourism prospects in and around their village.

The villagers of Andro have built a pretty reservoir at the foothills and established a park around it called the ‘Santhei Nature Park’. The villagers ensure that the park, a popular picnic spot for locals and tourists alike, is kept clean and green. With an orchid farm being built near the park, the tourist footfall at Andro has gone up significantly, translating into more socio-economic benefits for the locals.
7) FINDING AND PROPOSAL

In any business, Advertising and Marketing methodologies hold well for whatever length of time that the expert conduit can kept up standard according to the promises. Tourism potential of Northeast India needs to tap that potential and colossal measure of foundation work should be finished. A portion of the points are illustrated underneath.

1) Awareness among the nearby populace about the employment or wellspring of salary through the travel industry specifically or in a roundabout way by sorting out different workshops and publicizing through media and paper.

2) The media requirements to plays an important job in depicting the correct picture of an area. In the event of North East focus has been more on the militancy instead of its undiscovered capability of its normal excellence.

3) Hospitality, trustworthiness and regard must be taught in the brains of the nearby individuals for the visitors particularly the nonnatives.

4) Proper check and acknowledgment of the visit administrators what’s more, the administration they give. The visit administrators may be given motivating forces on the off chance that they can broadcast the vacationer capability of North East and present alluring bundles to pull in the vacationer.

5) Incentives and decrease in levies for inns arranged in remote areas

6) Churning out increasingly proficient seminars on the travel industry to the neighborhood individuals too the general population all in all in the states.

7) Attempt must be made to evacuate the passage limitations and boundaries that are common in interstate transportation in certain states like Arunachal Pradesh, Nagaland and Mizoram.

8) Awards and honors for the best administration to be given to the meriting states.

9) Lastly yet not minimal, Ministry of the travel industry should sorted out the travel industry fest for the entire locale.

To finish up with, the legislature ought to understand the desperation and significance of advancing the travel industry in North East India. The intermixing of the vacationer, uniquely the inward traveler, with the nearby masses will go a long route in diminishing the enduring grievances of seclusion raised by the general population. This will likewise help in evacuating the annoying observations that individuals have on the area and one day they will themselves adventure out to investigate also, discover why Meghalaya is classified "Residence Clouds" or Manipur is designated "The Jewel of India".
8) PROBLEMS

Issues in spite of the fact that there is a lot to be seen and experienced in the area, there are as yet a part of obstructions that have kept the travel industry from creating in a continued way. These are:

I) Poor Communication frameworks, particularly transport as the locale is landlocked furthermore, is associated with whatever remains of the count attempt by just a 22 kms restricted 'chicken-neck', and on occasion of common emergency such as avalanches, surges, and so on, the area gets totally cut-off from the sub-mainland.

ii) Rigid laws and limitations for voyagers into the area are another obstacle and the Govt. of India has certain licenses, for example, the R.A.P (Restricted Area Permit), I.L.P (Inner Line Permit) and both Indian nationals and outsiders need to submit to them to pick up section into a portion of the states in the N.E of India.

iii) Infra-structure and inns are very few and they should be made strides what's more, town homes and nation stays ought to be empowered. The partners and proprietors ought to be prepared in friendliness, yet safeguard their customary homes and sustenance propensities.

iv) Government Policy and general soundness and security are an imperative factor and security in every one of the states what's more, are vital for any long haul economical eco-social the travel industry plan in the area. Insurrection is an obstruction and despite the fact that the circumstance isn't excessively terrible, visit its fear setting off to the N.E. area as curfews called by the agitators are normal.

v) Lack of legitimate promoting, showcasing, systems administration and distributing of materials identifying with the N.E. locale of India is one more issue. Not very many explorers, indeed, even in India, have little thought regarding the locale and consider a portion of the states to be outsider and risky.

vi) The absence of documentation and insurance of legacy destinations and landmarks in the area.
9) SWOT ANALYSIS

To outline strategic planning and a workable framework for preserving and sustaining eco-cultural tourism in the region, a SWOT analysis is important and some of the points are given herewith:

**Strengths** – Instinctive friendliness; Nature, grand magnificence; Cultural and ecological legacy; Alternative recuperating through indigenous, restorative plants what's more, customary back rubs; moderate atmosphere.

**Weakness** - No attention to the travel industry being a supportable business; No human asset improvement; Low-education level; Poor network; Insurgency in a hardly any zones.

**Opportunities** – The Government of India's uncommon accentuation on North East . The travel industry; Special Central help plans; Investment by a wide margin located business people and neighborhood bodies.

**Threats** – Tourism development to antagonistically influence the social and social structure of goal social orders; Ecological awkward nature in earth delicate areas; Militancy in a few districts; Superstition and backwardness among a few clans.
