OBJECTIVES:
The study aims to create awareness amongst educators and other stake holders who can help the dyslexic students. The objectives of the study are:
1. To study the level of awareness about dyslexia and its signs in teachers teaching in main stream schools/parents of dyslexic students.
2. To create awareness if it is lacking in teachers teaching in main stream school and parents.
3. To screen and identify the dyslexic students from 5 different schools.
4. To implement a tool that can be used by teachers or parents to help academic performance in dyslexic students.
5. To implement a tool that can be used by teachers to evaluate academic performance in dyslexic students.
6. To study the relationship of the impact of the tools on different ages of the students.
