Work Plan & Methodology

Method of the study
Survey and comparative in this study will be used. The details of the subjects, tools of study and statistical tools used in this study are given below.

Population Sampling and
After going through several books, journals, reviews and discussing with the expert and guide the subject for research was finalized. All questioner and inventory will be filled from players and relationship will be find out those players are participating at in Inter collegiate and Inter Zone competition consider as population.

Population
Those players are representing for Inter Collegiate Athletics competition for rural and urban area are consider as a total population for this study.

Sample
Those players are represent for Inter Collegiate Athletics competition for Rural and urban area are selected as sampling.

Statistical measured
Mean, mode, median, standard deviation, f-test will be used as statistical tools for analysis.

Tool of data collection
Research tools for the present study data was collected with the help of 16PF (Personality Factors) Questionnaire by S. D. Kapoor

Limitation of the study
Since the researcher had to work successfully with proper planning within limited time and finance, he limited the study as follows.

i. There are various sports event but, researcher has limited his study to athletics event only.

ii. The study is limited to Male athlete of age 18 to 25 years only.
iii. The study is limited to Personality traits only.

**Limitations:**

Following are the limitations of the study:

1. Family background of the subjects was not taken into consideration.
2. The physique of the subjects was not taken into consideration.
3. The religion of the subjects was considered as limitation of the study.
4. The socio-economic status of the students was not taken into consideration.
5. The life style of the students was taken as limitation of the study.
6. Previous knowledge of students about stress and Aggression was not taken into consideration.
Scope of the study

On the basis of time availability, the Researcher, following are the limitations of the study

- The study will be limited the personality traits of Introvert state Among Rural and Urban Collage Players in Pune.
- The study will be limited to personality traits of Extrovert state Among Rural and Urban Collage Players in Pune
- The study will be limited to anxiety state Among Rural and Urban Collage Players in Pune
- The study will also be limited to the creativity of Introvert, Extrovert, and anxiety.
- The study will also be limited to only 150 players Rural and 150 players urban area in Pune.
Work plan

1. Formulating research problem......................... August 2017 to October 2017
2. Conceptualizing a research design..................November 2017 to December 2017
3. Selecting a sample........................................Jan 2018
4. Writing research proposal as a preparatory work... January 2018
5. Synopsis writing.........................................February to March 2018
6. Constructing an instrument for data collection........May to July 2019
7. Collecting data..........................................August to September 2019
8. Processing data...........................................October 2019
9. Analysis and interpretation of data..................November 2019
10. Summary writing and submission......................December 2019
11. Pre. thesis writing........................................January 2020
12. Thesis submission.........................................June 2020
